

# Earthdata Wiki User Guide

[Email Earthdata Support](#)

## Getting Started

1. If you do not already have an Earthdata Login, register for an [Earthdata Login](#).
2. To find the collaboration area (Spaces) that you would like to edit, view the Dashboard and examine the list of **Spaces**.
3. Click on the **link for the Space** that interests you, and then look at the space's home page.
4. Examine **the links for the "child pages"** in the left page tree navigation.
5. Click the **link** for a page that interests you.
6. If you want to Edit the page, click **Edit**. If you want to comment on the page, click **Add Comment** at the bottom.
7. If you want to Add a "child page" for a subtopic, click **Add Page** in the top right corner (if you have the permission to do so).
8. Whether you are Adding or Editing a page, **type** just as you do in Microsoft Word.
9. When you are finished, click **Save**.
10. For more information on how to edit and add functionality to your pages, refer to the Earthdata Wiki User Guide.
11. If you experience any problems, or need access to a certain space, send an email to [Earthdata Support](#).
