

# \*\*\*Draft Copy of ESDIS DOIs Status and Listing\*\*\*

Many ESDIS components have created DOIs and registered or reserved them using our help. The following missions and projects have begun the process of creating and registering DOIs. The chart below shows the registered/reserved DOIs by Data Provider. The table below gives a status of each mission's DOIs. The links go to the mission page where there is information about the DOIs they have begun to create.

The data in the charts and tables below is updated at the beginning of each month. For the most current information and to view detailed information about DOI submission and associated reports, visit <https://doiserver.eosdis.nasa.gov/ords/f?p=100:4>

A reserved DOI is one that has been created but not registered or publicly available due to lack of certain required metadata. In most cases, the product landing page is missing.

A registered DOI is one that has been reserved with the project and registered on Datacite and is publicly available.
