I meant to send you an update. Doug's comment during the EOSDIS Metadata workshop last month sparked some internal conversation about paring back the GES DISC EULA to only be in front of Sentinel data. We haven't made any decisions yet (more discussion after planning), so my immediate plan is to add the EULA metadata to those Sentinel collections. If we decide to leave the GES DISC EULA overarching all collections, then I'll go back and add them for everything. 02 Mar 2023 S. Ritz received confirmation from GES-DISC that they will meet the deadline for adding EULA IDs to their applicable data sets. 13 Feb 2023 Joseph Rincione Erich Reiter, Valerie Dixon , Carlee Loeser , Lena Iredell , Scott Ritz met on 13 Feb 2023 to discuss EULA ID population for GES-DISC products. We reviewed the UMM-C 1.17.2 JSON Schema and the EULA ID requirements. GES-DISC is on track to populate EULAs in their collection metadata by 14 Apr 2023 **CMR Provider ID:** ges_disc, gesdisccld **PoC: Carlee Loeser**
