

AutomaticQualityFlag (ECS)

AutomaticQualityFlag (ECS)

[Field Definitions are Available Here](#)

Metadata Level

Granule

Data Type

varstring(64)

Obligation

Optional

Description

The granule level flag applying generally to the granule and specifically to parameters the granule level. When applied to parameter, the flag refers to the quality of that parameter for the granule (as applicable). The parameters determining whether the flag is set are defined by the developer and documented in the Quality Flag Explanation.
