

Platforms and Instruments (Legacy)

Platforms and Instruments

ECHO

The ECHO Model includes contact information for several types of roles.

ECHO	ISO	Note
Platform /LongName	/gmi: MI_Metadata/gmi: acquisitionInformation// gmi:platform// gmi:description /gco: CharacterString	The Global Change Master Directory (GCMD) approach to naming things includes both an acronym (ShortName) and a complete name (LongName). This allows successful title searches using either item. Following that convention, the ISO Instrument title is ShortName > LongName.
Platform /ShortName	/gmi: MI_Metadata/gmi: acquisitionInformation// gmi:platform/gmi: citation// gmi:identifier //gmd:code/gco: CharacterString	The Global Change Master Directory (GCMD) approach to naming things includes both an acronym (ShortName) and a complete name (LongName). This allows successful title searches using either item. Following that convention, the ISO Instrument title is ShortName > LongName.
Instrument /LongName	/gmi: MI_Metadata/gmi: acquisitionInformation// gmi:instrument// gmi:description /gco: CharacterString	The Global Change Master Directory (GCMD) approach to naming things includes both an acronym (ShortName) and a complete name (LongName). This allows successful title searches using either item. Following that convention, the ISO Instrument title is ShortName > LongName.
Instrument /ShortName	/gmi: MI_Metadata/gmi: acquisitionInformation// gmi:instrument //gmi:citation// gmi:identifier //gmd:code/gco: CharacterString	The Global Change Master Directory (GCMD) approach to naming things includes both an acronym (ShortName) and a complete name (LongName). This allows successful title searches using either item. Following that convention, the ISO Instrument title is ShortName > LongName.
Instrument /Technique	/gmi: MI_Metadata/gmi: acquisitionInformation// gmi:instrument// gmi:type/gmd: MI_SensorTypeCode
