

Register in NCTS for the 2017 ESDSWG Annual Meeting

A reminder that any NASA-funded attendees who are not on a grant must register in the NASA Conference Tracking System (NCTS) and receive NCTS approval before they can participate in the ESDSWG annual meeting. The JPL folks will need to register via the JPL unified forecasting system. It is important to get this done as soon as possible to avoid disappointment. The NCTS Code for the meeting is 27310-17.
